www.veilux.net

Veilux, a privately held video security systems manufacturer, has proven to be a world leader in providing innovative products and technologies for the video security industry. Veilux with its headquarters in Dallas, Texas was founded in 2002.

Veilux recognized by implementing a number of programs designed to achieve 100% Customer Satisfaction, along with employee performance incentives based on quality and not quantity, has quickly earned it a legendary reputation.

COMPANY GROWTH

Beginning with just a few simple products, Veilux has grown to offer more than 100 leading products in the video security industry.

Veilux has Sales and Distribution facilities in New York, Miami, Los Angeles, and Chicago. We also have engineering and design offices in Dallas and Asia.

Veilux is decidedly focused on capturing the rapidly growing international video security market. Veilux's growing number of international locations also includes numerous sales and training offices, distribution centers, and service center locations around the world; London UK, Cairo Egypt, Amman Jordan, Seoul S.Korea, Shanzou China.

TRAINING AND SHOWCASE

Veilux continues to offer training in its world class facilities at its Dallas headquarters. Attendees receive up-close instruction and personal attention with our experienced instructors. For those clients unable to make it to the Dallas office, the Veilux's Mobile Product Showcase crisscrosses the country presenting unique way to view the most up-to-date Veilux product line first-hand.

PRODUCT DEVELOPMENT & MANUFACTURING

Veilux has become an industry leader by continually maintaining a crucial blend of Manufacturing, Marketing, and Engineering strengths. From the product Designer to the Programmer, from the Customer Consultant to the Managing Director; all Veilux employees place the highest demands on themselves and their work.

Our policy of complete integration has allowed the company to grow rapidly and change quickly, without ever compromising its ideals or customer expectations. This capability allows Veilux to easily accommodate special customer requests – those which other manufacturers would be unable to provide. Yet, Veilux is able to continue producing products at a high volume with maximum efficiency at the lowest possible cost.

LOCAL SUPPORT - GLOBAL STRENGTH

Veilux maintains an extensive customer base, selling the company's more than 100 finished products through a network of hundreds of dealers throughout the United States and in over 30 other countries. Veilux's video security cameras can be found in countless places.

The company's products have been selected for a number of prestigious installations at: NASA facilities in Houston Texas, Raytheon Technical Services Co, Washington State Dept of Fish and Wildlife, Navy Region SouthWest, US Army, and USAF Misawa Air Base. Veilux realizes that success in business is never a given, but something that must be earned literally on a daily basis.

As Veilux's Product Development Director says, "We supply solutions which are specially geared to meet the user's needs. This applies in the security market just as it does in the IT area. And this is precisely where our strength lies - we are a flexible research, development, and manufacturing company which specializes in security products."

Engineering

Utilizing CAD Systems, Digital 3D Modeling and Stress Analysis, Veilux's engineers comprise the most capable development team in the industry.

Quality Assurance

In-house product and design testing capabilities include, Compliance Test Labs, ESD and Environmental Testing.

From Start to Finish

Powerful capabilities and other in-house manufacturing operations allow Veilux to control the production process from start to finish.

Achieving Excellence

Veilux employees work within clean, safe, friendly environments, featuring state-of-the-art systems, tools, and technologies.

Service 100% Customer Satisfaction

Guaranteed Ship Dates, In-Stock Availability, Technical Assistance with 100% Customer Satisfaction.
